Mumbai, Maharashtra, India

Professional Summary

Data Analyst skilled in **Power BI, SQL, Python, and Excel**, with experience in **data analysis, business intelligence, dashboard development, KPI reporting, and ETL processes**. Experienced in transforming complex datasets into actionable insights through data visualization, statistical analysis, and interactive reporting.

Education

Vidhyavardhini's College of Engineering and Technology
Bachelor of Engineering in Computer Engineering (CGPA: 8.02)

Vasai, Maharashtra
Nov 2022 – May 2026

Technical Skills

Programming & Databases: Python, SQL, PostgreSQL, MySQL

Business Intelligence & Analytics: Power BI, DAX, Power Query, Data Modeling, EDA, Statistical Analysis, KPI Reporting, Dashboard Development

Data Engineering: ETL Pipelines, Data Transformation

Tools & Libraries: Excel, Pandas, NumPy, Matplotlib, Seaborn, Git, GitHub

Cloud Technologies: Microsoft Fabric, OneLake, Azure Fundamentals

Experience

Research Analyst Intern – RE Journal
Mumbai, India

Feb 2026 – Jun 2026

- Analyzed **10K+ real-estate records** using EDA techniques to identify pricing trends and market insights.
- Cleaned and transformed datasets using **SQL, Python, and Excel**, improving data consistency and reporting accuracy.
- Developed interactive **Power BI dashboards** and KPI reports to support business intelligence initiatives.
- Utilized **SQL** for data extraction, validation, and analysis of structured business datasets.
- Delivered **data-driven insights and reports** by collaborating with stakeholders and business teams.

Projects

FoodPulse Analytics (Power BI, SQL, Excel, DAX)

Code

- Developed a multi-page **Power BI dashboard** analyzing **200K+ food delivery records**.
- Tracked KPIs including **Revenue, Orders, Average Order Value, Delivery Success Rate, and Revenue Growth**.
- Performed **customer segmentation** and restaurant performance analysis to identify business trends.
- Implemented **DAX measures, drill-through reports, and interactive visualizations** for business intelligence.

Emergency Care Intelligence Dashboard (Power BI, Excel, DAX, Data Modeling)

Code

- Built a healthcare analytics dashboard analyzing **9K+ emergency room patient records**.
- Monitored KPIs including **Patient Volume, Wait Time, Satisfaction Score, and Referral Analysis**.
- Designed monthly and consolidated reports using **Power BI, Power Query, and DAX**.
- Performed demographic and operational analysis to support healthcare decision-making.

Live Business Analytics Platform (Python, PostgreSQL, Streamlit)

Code

- Built a **real-time analytics platform** to monitor revenue, conversion rate, and order volume KPIs.
- Designed an **ETL pipeline** processing **10K+ records** using PostgreSQL and Python.
- Developed interactive dashboards and applied **predictive analytics** for trend forecasting.

Achievements

- Published an **IEEE Research Paper** on AI-driven urban grievance management and intelligent plan approval systems.
- Served as **Deputy Media & Communication Lead** at Android Development Club.
- Participated in AI, FinTech, and Data Analytics hackathons and technical competitions.

Certifications

- **IBM SkillsBuild Data Analytics Certification** (Grade A+)
- **Deloitte Data Analytics Virtual Internship**
- **Python Certification** – HackerRank
